

**Certificate
05-038C/6**

Continuous surveillance

of
Glass fibre mesh

for use in External Thermal Insulation Composite Systems (ETICS) with rendering
according to ETAG 004/2011

Basis: Test Report No. PB 1.3/13-008-7 from 17 January 2013
to the MFPA Leipzig GmbH

Recorded performance features: Tests according to annex C of the ETAG guideline 004
- Mass per unit area
- Ash content at 625 °C
- Mesh size of the reinforcement
- Elongation in the as-delivered state and after ageing

The certificate only applies to the test results indicated in the above-mentioned test report of the
examined glass fibre mesh. The requirements after ETAG 004 are fulfilled.
